## Indosuez Wealth Management in Monaco, partner of the Monaco Blue Initiative and the Blue Economy & Finance Forum 2026

CFM Indosuez, Crédit Agricole CIB and Crédit Agricole S.A. are once again partners of the Monaco Blue Initiative (MBI) and the Blue Economy & Finance Forum (BEFF) 2026, illustrating the Group's collective commitment to responsible finance and ocean conservation.

Monaco, 18 May 2026 – CFM Indosuez, the leading wealth management bank in the Principality, alongside Crédit Agricole CIB and Crédit Agricole S.A., renewed its partnership with the Monaco Blue Initiative and the Blue Economy & Finance Forum, which will take place in Monaco from 27 to 29 May 2026. Organised by the Prince Albert II of Monaco Foundation and the Oceanographic Institute, these international events bring together decision-makers, scientists, investors and key figures from the worlds of finance and philanthropy every year to accelerate the transition towards a sustainable and regenerative blue economy.

By supporting the 2026 edition, CFM Indosuez, Crédit Agricole S.A. and Crédit Agricole CIB are reaffirming their long-standing commitment to responsible finance and ocean conservation, in full alignment with the Crédit Agricole Group's values and ESG strategy.

In Monaco, these initiatives demonstrate CFM Indosuez's commitment to supporting innovation, fostering cooperation between the public and private sectors, and promoting concrete solutions for the protection of marine natural capital. To this end, CFM Indosuez develops solutions that incorporate stringent environmental criteria, finances projects aimed at preserving marine ecosystems, and supports its clients in channelling their savings towards initiatives that make a real difference. CFM Indosuez also supports scientific and institutional bodies dedicated to understanding and protecting the marine environment, in the belief that science must provide a sustainable basis for economic decision-making.

*“CFM Indosuez's commitment to the oceans is fully in line with the Crédit Agricole Group's strategy, which makes the environmental transition a central pillar of its action. Collective action is essential to tackling the environmental and economic challenges facing our societies. Our participation in the MBI and the BEFF reflects our conviction that finance plays a leading role in the transformation towards a more sustainable economy,”* says Bénédicte Chrétien, Chief Executive Officer of CFM Indosuez Wealth Management.

As a strategic partner, CFM Indosuez and the Crédit Agricole S.A. Group will take part in two key events:

- The Monaco Blue Initiative (27 May 2026), a platform for high-level exchanges on the governance and protection of the ocean.
- The Blue Economy & Finance Forum (28-29 May 2026), an unmissable event bringing together up to 300 participants from the public and private sectors, finance and philanthropy, to accelerate the development of innovative solutions and new forms of cooperation.

CFM Indosuez clients will also be able to benefit from privileged access to these events, by invitation.
